
RIFUGIO BIELLA SEEKOFEL HÜTTE

"The Alpine refuge is a sober, essential and sustainable hut at altitude, a cultural and local defense, a center of dissemination, training, educational and learning activities in order to promote a proper attendance of the mountain.

It is not a hotel but a laboratory of "making mountains" that knows how to contain ethics together with mountaineering, sociability, hospitality, high performance in the environment, conscious tourism, respect and protection of the alpine landscape".
